even when the real work of showing up
the concern was to be done by others.
There was a notable exhibition of this at
Parkersburg at the Congressional Convention four years since, when President Bob
Blair sat down on Sweeney's resolutions,
(a great light seems to have shone on Bob
since then), and there was another in the
Democratic caucus at the capital two years
later, when the balance of the mice and
men and long tajled rats all ran off, and
left old man Hearne to tackie the establishment single handed. Now that the
opposition have accomplished their purpose of making the fasts appear, they are
to be congratulated on doing it thoroughly,

There is likely to be something of a contest for the fourth place as delegate at large from your State to the Cincinnati Convention. Besides Gov, "Jonce" Camden, of Parkersburg; Senator R. F. Both Houses of Congress adjourned at noon, sine die. The first regular session of the 46th Congress adjourned yesterday at noon, after being in session since the 1st Monday of December last. The actual work accomplished is very insignificant. The complished is very insignificant. The debeloid of the extra session have been kept in misd, and from the outset, as some one year. There is a decline in the area sown in the States of Wisconsin and Iowa of nearly 12 per cent. In Minnesota an increase of 1 per cent. In Nebraska an increase of 9 per cent, and in Californial 2. The condition of winter wheat is remarkable and is 94, which is 4 per cent above the average of 1 last year. Pennsylvania. Ohio, Indiana and Illinois, all reportabove 100. Kansas is only 72.

THE WORK OF CONGRESS.

During the session which terminated today, 1,197 bills and joint resolutions were

resentatives. The memors introjuced during the first (or extra) session respectively 773 and 2.526, making a grand total of 8,784 bills and joint resolutions Introduced thus far during the present Congress. At the hour of adjournment today, besides a great number of measures not yet reported from the committees, there remained about 800 bills and joint resolutions on the Sonate calendar, and resolutions on the Sonate calendar, and about 1,400 bills and joint resolutions on the House calendar, including some 900 pension and other private bills which have been reported with committee recom-mendations for passage.

Senator Henry Still on Deck Washington, June 15 .- Senator Davis, of West Virginia, made a long speech on the subject of his Treasury investigation. Some two years have been spent upon this investigation, more than \$20,000 expended, and all that the committee has been able to report, in substance, is the fact that there are some apparent discrepancies as to the amount of the funded debt, and that on some of the ledgers and other books of the Government there are blots and scratches. Senator Davis declined, however, to express an opinion as to his belief that there had been any wrong doing by any government official, and he did not even charge that a single dollar had been corruptly appropriated or dis-

Senator Dawes, a member of the Com Sgnator Dawes, a member of the Committee, made a very vigorous and scathing reply to Davis, and showed how unfair and partisan it was to throw out insiduations that there was maladministration in the Treasury, and yet to refuse to express an opinion affirmatively to that effect. Mr. Dawes showed very conclusively that the Democrats, after two years investigation, and an expenditure of \$20,000, had been unable to find that a single dollar of the \$13,000,000,000 passed over the Treasury counters had been misappropriated or used by the Republican administration.

Potent Reasons Why Thurman's Bandana Will Not Wave in Triumph Over the Field-Seymour Thinks the Touch of Time Has Withered the Use-Samuel I. while Til-

e Chance in a Thousand That he Will

COLUMBUS, O., June 16.-There is on nance in one thousand that Allen G. Thurman, of Ohio, will be nominated fo President at Cincinnati next week. But not more. The one thousandth ticket much probability of it. The nomination of Gen. Garfield put Senator Thurman out of the question. His chances would have been equal to those of any other candidate had the Chicago nomination gone anywhere else than to Ohio.

The forty-four Ohio delegates, with the exception of six, two from the First, two from the Second and two from the Twen tieth districts, are honestly for Thurman the same time without any hope or expec tation of nominating him. But if upon any ballot the thirty-eight unquestionable votes for Thurman in the Ohio delegation will give the nomination to any candidate except Tilden, and possibly Bayard, they will be transferred without a moments de-

lay.

There is a good deal of talk in this State about Jewett and Payne, but it is only talk. The man that the Ohio delegation would like to see nominated is Justice Field, and they will break for him the the nomination. They would do the same for Gen. Hancock second and Hendricks third. But Field is the man that they

wrong side. It will be a fight in which the Democrats will make but little demonstration, but the size and the vigor of the "still hunt" will be something marvellous to contemplate when the ballots are being contemplate when the ballots are being counted. An army of 5,000 workers will be enrolled and regularly compensated not to talk, but to keep their mouths shut in public, and work in private with every doubtful vote in the most efficacious mandoubtin vote in the most efficacious manner, and see that every Democrat goes to the poils. While the Republicans are firing their heavy artillery at an enemy that claims he doesn't want to fight, his grand corps of scouts will be everywhere laying torpedoes, breaking the triggers of the muskets and hlunting the bayonets, which do the real execution in the final hand-to-hand charge on election day.

Then, if the Republicans only carry Ohio by a scratch, or if the Democrats should carry it, you will hear the Democratic bugles everywhere make proclamaratic bugles and bugles are bugles and bugles and bugles are bugles and bugles are bugles and bugles everywhere bugles are bugles and bugles everywhere bugles are bugles and bugles and bugles are bugles a

It is the programme to concede Ohio to Garfield by twenty thousand majority, and at the same time declare that the Democrats do not propose to dispute the State with him at that figure. If the Republicans permit the majority in October to fail much below that figure, they will find that they have furnished their opponents with a club, the size and efficiency of which will depend upon the smallness of the majority in October.

A Syracuse special says Governor Seymour passed through that city yesterday on his way to Aurora, to deliver an ad dress to the young ladies of Wells College. He expressed the opinion that the lege. He expressed the opinion that the National Convention at Cincinnati would be quiet and harmonious, and would arrive at its conclusion without delay or bitter controversy. The Governor looked the very picture of health. United States Commissioner Maxon said he had not seen the old gentleman looking so vigor-

ous and strong in a thrice of decades.

Mr. Seymour remarked: "I am too old to run for President, even if I were willing myself."
"But," put in one of the gentlemen present, "you forget you look ten years younger than Tilden, although you really are four years older, and we don't hear Tilden will not run because of his age. It is a man's feeling that makes his age and not the almanac."

Seymour—"Well, Tilden is too old, too—we are both too old. Some younger men should be named."

To the suggestion that Seymour accept the nomination and decline the election,

the nomination and decline the election, the Governor made no reply except a augh. Commissioner Maxon—"Is it not a fact that an American citizens has the right to seek the nomination for President, but, having received it, no American citizen has the right to decline it?"

has the right to decline it?"

Mr. Seymour made no attempt to contradict this broad statement, but simply nodded a half approval, leaving impressions not unfavorable in the eyes of those designing his nomination at Cincinnati. At no time during the interview did he express positively regarding the refusal to accept the nomination if tendered. Seymour goes from Aurora to Olean, a remote town in Chatauqua county. He will remain in the latter place a week or more, probably being absent from home at Deerfield during the convention. Some people are inclined to believe there is some significance in thus absenting him.

prefer above all others. His record is a judicial one, and would be hard to assail, except on questions of judicial interpretation, and this would only go to prove him a thorough going Democrat. Hendricks would find his soft money record against him and Hancock would find the Mrs. Surratt affair a matter that would need explanation during the whole campaign.

The potent reason why Thurman is not available is this: His nomination would make the result of the Presidential election hinge entirely upon the October election in Ohio, for it is a fact that even in 1876 the result of the October election in Ohio, for it is a fact that were more or less doubtful. Thurman is astrong as his party in Ohio, and with almost any other nomination than Garfield from among the candidates at Chicago, would possibly have been stronger. But with Garfield and Thurman to carry the October election. This is too great a risk for the Cincinnati Convention to fake. To fight the Presidential battle in Ohio in October and lose, is what the Democrats do not want to do, and if they nominate an Ohio man they must light the battle here and then, and, with the most liberal allowance, only one chance to win in ten. Despite all that is said to free contrary, the

Hanlan, of course, is the favorite for

the professional race by long odds but there are some who think that the Engish sculler Boyd will improve on his reputation and make a hard fight for the cham pionship. He arrived has week and commenced practice immediately, but stayed out only a short time the first day, and has been very wary when observed ever since. It is thought that he will make a lively struggle for the first place. Most of the other men arrived before Monday, but took their practice spins on the upper part of the river. The distance of the professional race will be four miles instead of five, as originally intended, the alteration being due to the fact that the river at a point two miles and a half from the starting place is not sufficiently wide to admit of the state of the start of t the stakes being turned without much danger of fouling. The Company offering the prizes have agreed to the change of distance, and authorized the custodians hereof to pay the money to the winner of a four mile turning race. The prize for the amatuer race is an elegant cup valued at \$1,000, weighs three hundred ounces, is of sterling silver, and is described as the handsomest trophy ever offered for a boat

GARFIELD'S RECEPTION

At the Capital Last Evening—The General's Remarks-Speeches by Other Distinguished Republicans.

a serenade was tendered General James A. Garfield by the National Veteran Asociation. ENGLAND'S ROYAL GUEST.

LONDON, June 16 .- After the presentation of addresses at Guildhall to the King of Greece, the corporation entertained the distinguished guests at luncheon. The Lord Mayor proposed the health of the King, who responded, briefly referring to the progress Greece has made in recent years. He said that as soon as the frontier question was settled, he felt sure that the construction of a railroad and other internal improvements would begin.

internal improvements would begin.

The Prince of Wales, responding to "The Health of the Royal Family," said he felt sure he expressed the sentiments of all Englishmen when he sincerely hoped his Majesty, the King of Greece, might shortly have advantages, which until now had been withheld from him.

Mr. Gladstone, in proposing the health of the Lord Mayor and the Corporation, said he trusted that the report of this celebration would go forth to the world as a demonstration to all whom it concerns.

that the interest of Englishmen in the fortunes of Greece, is real and universal. The corporation, he said, have chosen a day for this ceremony with singular felicity. On this day the representatives of the great powers of Europe are met together in the Capital of the Great German Empire for the purpose of considering in what way they may promptly give effect to the stipulations of the treaty of Berlin, and prove that the assembled wisdom and might of Europe speaks to the world is accents that denote reality, and is destined to have practical effect. I entertain the fervent wish (united with National confidence that it will be fulfilled,) that the representatives of the powers who are thus assembled may take in hand the important task constitutes.

May every provision be adopted that can lighten the burden of the arrangement and insure its happy effect so that it may take its place among those monuments of diplomatic wisdom which will receive grateful recognition not only of men and the generation of to-day, but posterity through ages to come.

The land troubles are begining to assume a serious aspect. Land League meetings are growing in numbers, and scenes of violence are of every day occurence. The non-payment of-rent programme is bearing its inevitable fruit in the hundreds of evictions which take place overy week, accompanied by lawless threats, and in many cases sanguinary outbreaks.

The people assemble in thousands to resist the processes of eviction, but the landlords, with the assistance of the police, are usually successful. An ejectment in the County Leitrim yesterday ended fatally, so far as the assaulting party was concerned. The facts are as follows:

Henry B. Acheson, of the County Roscommon, attempted to fence a farm which belonged to him near Ballenamore in Leitrim, from which a tenant had been ejected. The peasantry to the number of 1,500 swarmed to the spot from the surrounding country, armed with shovels, pitchforks, &c., and attacked the workingmen who were erecting the fence: The men who were erecting the fence: The Acheson party, who were put to flight, turned and fired a revolver, wounding a man named Mehan, who died later in the evening. tlement of the land question. He said that some resolution condemning the conduct of the Irish Parliamentary party should be passed by the League. If the party did not pass the bill they would be false to their pledges.

The Rev. W. Joyce, in speaking of Mr. O'Connor Powers' land bill, said it was only a makeshift, and the Irish party should reject it. Other speakers used equally harsh terms. It was proposed that Mr. Parnell should be sirected to come to Dublin to explain the conduct of the Dublin to explain the conduct of the party. The whole debate was characterized by a spirit of the greatest hostility towards their representatives in Parlia-

nent.
The meeting concluded by calling upon the party to pass the ejectment bill reject the O'Connor power proposition

## TROUBLE IN THE GLADSTONE GOV.

London, June 16 .- It is said that Prenier Gladstone wrote Monday night last, before leaving the House of Commons a to France, explaining the O'Donnel' inci-dent, and instructing him to read the letter to President Gravy. It is also rumored that if O'Donnell fails to prove his accu-sation against Challemell Lacour, Premier Gladstone will move a vote of censure on

him.
